

## Utilities: Site Heating LTHW Heating Boiler Hire

### The challenge

A call was taken via Watkins Hire's 24/7 Emergency Hotline regarding the urgent need for assistance due to the failure of an existing boiler at a prestigious residential block of 134 apartments in London

### What did we do?

Our experienced Boiler Specialist leading the enquiry worked closely with Watkins Hire's service and transport department and successfully arranged the quick installation of a low temperature hot water heating boiler to site.

### How did we do it?

Watkins Engineers arranged for a 1200kw gas fired LTHW heating boiler to be delivered and installed. The 1200kw boiler was also fitted with Watkins Hire's unique 'remote fault diagnosing GSM telemetry system' providing automatic and instant equipment diagnostics notification, enabling the Watkins Hire engineering service team to quickly and accurately respond if a fault occurs with the installed equipment.

### The Result

The LTHW boiler was delivered to site and installed and commissioned within two days. This resulted in the reinstatement of heating to all 134 apartments.
